

F83 E

sense

F83 E PRO

Accurate, reliable, easy to use: thanks to the weighing system built into the fork that ensures always the exact grams of ground coffee in the portafilter, the F83 E SENSE is designed to ensure unmatched precision for every dose.

- 83 mm flat M340 burrs (Dark-T® coating)
- User-friendly touchscreen display
- Plus statistics allowing performance tracking and constant data accessibility
- Double delivery mode: Direct and Master Mode that allows the portafilter to be saved and detected

Also available in PRO variant with easily removable grinding chamber for quick and easy maintenance.
